

THOMSON REUTERS EIKON FOR RETAIL TRADERS

PROFESSIONAL POWER TO THE PRIVATE TRADER

Loaded with real-time news & data, fundamentals, economic reporting, analytics, and much more. Thomson Reuters Eikon for Retail Traders is quite simply the most powerful platform available to the private trader.

THOMSON REUTERS EIKON REDEFINES HOW YOU LOOK AT THE MARKET

We've placed the most comprehensive market information, news, analytics, and fundamentals available in a desktop, and made them as simple to use as the internet.

YOUR SINGLE DESTINATION FOR ALL THE CONTENT YOU NEED

Now you can find the essential news, data, commentary, and analytics you need, all in one place. Search all content in powerful new ways. Each result delivers related content, anticipating your next step.

SUPERIOR ANALYTICS WITH METASTOCK PRO

With the optional MetaStock Pro software package, you have the analytic trifecta called the PowerTools.

FREEDOM TO BE COMPLETELY MOBILE

Access your desktop at work, at home, or on your mobile device, maintaining all of your preferences and permissions.

The screenshot displays the Thomson Reuters Eikon desktop application. The interface is organized into several sections:

- Top Navigation:** Includes a search bar, browser tabs, and navigation links for Home, Asset Classes, Countries, News and Research, My Eikon, Reuters Insider, Trading, and RQDev.
- Left Sidebar:** Lists various market categories such as Equities, Indices, Index Futures, TR Indices, Stocks, Foreign Exchange, Money Markets, Commodities, Funds, and Real Estate. It also includes sections for News and Research, Monitoring, Support, and Create a New Flex.
- Main Content Area:**
 - Equities:** Features a headline "S&P 500 edges lower after Fed minutes" with a sub-headline "NEW YORK, July 11 (Reuters) - U.S. stocks fell on Wednesday as minutes from the last Federal Reserve meeting showed policymakers are open to the idea of providing more economic stimulus but that conditions might need to worsen for a consensus to build." Below this is a line chart showing the price of the S&P 500 index from May to July 2012, with three lines representing different indices: .N225 (blue), .DJI (orange), and .FISES (purple).
 - Politics, Policy & Risk:** Includes a headline "Assad loses envoy in first diplomatic defection" with a sub-headline "DIPLOMACY" and a list of related news items.
 - Commodities:** Features a headline "Oil jumps as stockpiles drop; corn, soy down" with a sub-headline "COMMODITIES" and a list of related news items.
 - Front Page:** Includes a headline "Dollar rises as Fed minutes show bond buys not imminent" with a sub-headline "FRONT PAGE" and a list of related news items.
- Right Sidebar:**
 - Key Indices:** A line chart showing the performance of three indices: .N225 (blue), .DJI (orange), and .FISES (purple) from May to July 2012.
 - Top Equity Indices:** A table listing various equity indices with their current values and percentage changes.
 - Cross Markets:** A table listing various commodity prices with their current values and percentage changes.

COMPLETELY CUSTOMIZABLE WORKSPACE

You know best when it comes setting up your workspace. With Thomson Reuters Eikon for Retail Traders you can choose from one of our default desktops, or customize to meet your personal style.

The screenshot displays the Thomson Reuters Eikon workspace interface. The top navigation bar includes 'Home', 'Asset Classes', 'Countries', 'News and Research', 'My Eikon', 'Reuters Insider', 'Trading', and 'R8Dev'. The main content area is divided into several sections:

- Asset Classes:** A sidebar on the left lists categories like Equities, Indices, Futures, TR Indices, Stocks, Foreign Exchange, Money Markets, Commodities, Funds, and Real Estate.
- News and Research:** A central section featuring a headline 'US STOCKS-Wall St lower on global economic worry; tech weighs' with a sub-headline 'NEW YORK, July 12 (Reuters) - U.S. stocks declined on Thursday, with the S&P 500 and Nasdaq down more than one percent, as data pointing to an improvement in the labor market did little to shake investor pessimism about a faltering global economy.' Below this are bullet points: 'Superannuation shares tumble 44 pct after poor results', 'Activist funds raise their stakes in Navistar', and 'United to refresh fleet with \$14.7 bn Boeing order'. There are also 'EQUITY QUICK LINKS' for Time & Sales, Option Watch, Option Calculator, Company Strategy, Index Movers and Sector Analysis, Economic Indicator Monitor, and Economic Indicator Chart.
- KEY INDICES:** A line chart titled 'Daily 3 Months' showing price trends for NZ25, DJI, and FTSE from May to July 2012.
- TOP EQUITY INDICES:** A table listing various indices with their current values and percentage changes.

FROM HOME YOU CAN:

- Browse for information on asset classes and countries
- View asset-related news
- Access market data analysis tools, such as calculators and real-time charts
- Create custom screens
- Manage your profile
- Discover the latest Thomson Reuters product updates
- Access Thomson Reuters support services

MAKE THE HOME PAGE YOU OWN

Customizing your workspace is easy, and the changes apply even when you log in on another computer.

FIND WHAT YOU WANT, WHEN YOU WANT, HOW YOU WANT

Thomson Reuters Eikon for Retail Traders search is a high-speed, integrated information and data retrieval service.

DETAILED SEARCH CRITERIA

Searches can be as broad or specific as you need. The criteria are almost endless and completely customizable

SEARCH FUNCTIONS

- Comprehensive search across categories, asset classes, news, commentaries, people, local files, and Market Tools (Overview pages, Monitors, Charts, Calculators)
- Specify your search in each of the categories and your result will be clustered making it easy for you to drill down
- Simple keyword or code-based searches
- More advanced criteria-based searches
- Export large lists from your search results to Excel or MetaStock Pro

FLEXIBLE, ORGANIZED, READY TO WORK

The Flex document sample library provides a set of pre-defined flex documents with content, categorized per asset-class and region. You can also make your own Flex documents with any assets you choose.

FLEX DOCUMENTS OFFER THE FOLLOWING

- A 'Favorites' feature has been introduced for instant access to your preferred files
- Tab-based document management. Tabbed browsing offers visibility and allows you to perform multiple tasks at once
- Full screen mode will hide applications menus and toolbars and get a much clearer overview of the document you are looking at
- 'A help balloon' has been plugged to particular tasks to provide guidance on the management of your workspace
- The Thomson Reuters Drive is a personal hosted storage facility where you can store your work remotely, which allows you to access your files from any location

The screenshot displays the Thomson Reuters software interface. The top window shows a list of stocks with columns for Name, Ten, Last, Net Chg, Pct Chg, Bid, and Ask. Below this is a 'Time and Sales' window showing market data for S&P 500 INDEX, including Range, Last Trade, Volume, and Turnover. The bottom window shows a technical analysis chart for the S&P 500 INDEX, with a 'Daily' view and a 'Time and Sales' window showing market data for Wednesday, July 11, 2012.

TABBED BROWSING
Put the info you want up front while keeping the rest close at hand.

MAKE EACH WINDOW YOUR OWN

Each Flex document can have as many windows as you want, and each contains completely customizable assets.
